#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 13 November 2007.
- 2a) ☐ This action is **FINAL**.                      2b) ☐ This action is non-final.

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

1. Applicant's election without traverse of Group I, claims 1-12, in the reply filed on November 13, 2007, is acknowledged.

However, the application still contains the following Species which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, drawn to a circuit device wherein a separated distance between the first and second elements is longer than a separated distance between the second circuit elements; claims 1-6 and 8.

Group II, drawn to a circuit device wherein a first lead is connected to the first or second circuit elements, a second lead connecting the first and second circuit elements, and a third lead extending in a manner of connecting the first and second circuit elements; claims 9-12.

Group III, drawn to a circuit device wherein the first and second circuit elements are sealed by enclosing the sealing resin from a gate in a cavity molded with a mold, and a distance between the first circuit element and the gate is longer than a distance between the second circuit element and the gate; claims 16-18.

2. The Species listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I lacks the special technical feature of Group II, such as first, second, and third leads connected to or connecting the first and second circuit elements.

Group II lacks the special technical feature of Group III, such as enclosing the

sealing resin from a gate in a cavity molded with mold in order to seal the first and second circuit elements.

3. Applicant is advised that the reply to this requirement to be complete must include an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143).

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Abul Kalam whose telephone number is 571-272-8346.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wael M. Fahmy can be reached on 571-272-1705. The

fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
